

EOC Kits for Universities and Colleges

An EOC (Emergency Operations Center) is the physical location where an organization comes together during an emergency to coordinate response and recovery actions and resources. These centers may alternatively be called command centers, situation rooms, war rooms, crisis management centers, or other similar terms. Regardless of the term, this is where the coordination of information and resources takes place. The EOC is not an incident command post; rather, it is the operations center where coordination and management decisions are facilitated.

EOC Vest Kit for Universities & Colleges

The DMS-05752 EOC 27 Position Vest kit for Universities and Colleges by Disaster Management Systems identifies the most up-to-date positions named within the National Incident Management System (NIMS). Each position Vest comes complete with a job action work sheet and all EOC and ICS forms.
