

Tactical Triage Pack

Combines LSI Medical Supplies and Triage Ribbons

Be it an MCI, Active Shooter or Routine Medical run - this versatile chest-pak is optimal for any call that requires rapid patient treatment. Optimized from lessons learned in tactical medicine and rigorous field testing, this pack meets the demands of high-intensity events.

- Chest-mount configuration for rapid equipment access.
- Developed for First Responders and Tactical Medics.
- Ideal for MCI and Over-The-Side operations.
- Integrated 4 color triage ribbon system.

Grab-handle and safety release neck strap.

Dual side-mounted triage ribbon dispensers.

Back pouch holds litter or trauma plate.

Integrated triage count cards and grease pens.

Ample room for large medical supply load-out.

Front-mounted tourniquet pouch for rapid access.

DMS-05900
