

★ S.T.A.R.S.™

Student Tracking And Release System

The task of accounting for students in emergency scenarios is a daunting obligation. The S.T.A.R.S. tracking and release system provides educators a simplified tool to effectively accomplish this task. Utilizing a highly-visible tag with color-coded receipts and unique numbering, S.T.A.R.S. ensures that all students are easily identified and accounted for.

- 1 **Check-in** receipts ensure students have been assessed and accounted for while in the assembly area or classroom. The tag provides a visible marker to indicate which students have been checked in.

Accountability Tag

The tag is divided into two main sections. The top section is for 'Check-in Receipt' and includes fields for 'Student's Name', 'Home Room', 'Class', and 'Trapped Location'. It features a red star logo and the text 'S.T.A.R.S. Student Accountability Tag' with a unique ID 'A543'. The bottom section is for 'Check-out Receipt' and includes a 'Released to' field, a 'Released by' field, and a 'Released on' field. It also features a red star logo and the text 'S.T.A.R.S. Student Accountability Tag' with a unique ID 'A543'. A red cross symbol is at the bottom with the text 'Use back for injury documentation'.

- 2 **Check-out** receipts are used to document and streamline the release of students. The "released to" section ensures responsible reunification and release.

Keep them safe - keep it simple. In emergency scenarios, the best tools are the ones easiest to use. With all-weather reliability and an intuitive process, S.T.A.R.S. will let you focus on your plan while having the confidence that your students are properly accounted for.

Item # DMS-06005

Accountability Log

The log is a table with columns for 'Check-In' and 'Check-Out'. It lists students with their names, IDs, and check-in/out times. For example, Johnny Bergman has ID B2169 and checked in at 9:12/15. Sara Nickels has ID A543 and checked in at 9:12/15. The log also includes a 'Released to' section with a 'Released by' field and a 'Released on' field.

Reconcile matching receipts by stacking them. Cut-out window will show both receipts are present.

The versatile all-weather accountability log allows for rapid reconciliation of students from check-in to check-out. A single log may be used for both processes in smaller events or multiple logs may be used for larger events. This scalability makes S.T.A.R.S. ideal for any activity, from class-specific field trips to full-fledged school evacuations.
